

To whom it may concern,

I happen to hear some disturbing news that your organization was going to make changes that will undue what Indiana has put into action; that is Indiana's Telephone Privacy law. I can sum my feeling in a single sentence. Let it alone!!!!!! Don't touch it or do anything to change it because it is working perfectly. I work the 3rd shift and I rely on the phone calls to be for emergency only!! What did I get in the past?? 2 to 3 calls daily Mon to Sat. I would beg them to not call, because I was trying to sleep. You know what!??? I had a couple of them laugh at me!! If I had their address, I would have strangled them in their sleep with their own phone cords!!! Then of course, there are the same idiots that call my wife between 8PM & 10PM, that try to throw her the same f__king pitch that she said NO to 3 days earlier. AND of course, they would thank us for being a customer of "INSERT ANY BUSINESS NAME HERE".

I'm sorry, but that is LEGAL HARASSMENT!! OR at least it was!! When I heard about Indiana's Telephone Privacy Law, I signed up in a heartbeat and I told everyone that would listen to me to sign up for it! Do you know how many phone calls that I get now? ZERO! The BIG GOOSEEGG! NADA! ZILCH! If I want siding, vacation trip, insurance, refinancing, OR ANYTHING that anyone is selling, I will pick up the yellow pages and let MY fingers do the dialling. I get my blestful 8 hrs of undisturbed sleep and my family is a lot happier that I'm not grumpy anymore. AND YES I'm very passionite about this subject. God bless the individuals in Indiana that brought to life Indiana's Telephone Privacy Law!!
